

Stretch Wrapping with Turning Table

WATCH VIDEO

Turntable Wrapping Machine: automatic, versatile and reliable.

Once the pallet with bags is positioned on the turning table, it initiates rotation, and the machine automatically wraps the pallet and bags in stretchable film, creating a secure pallet prepared for shipping and storage.

Applying a top cover protects the pallet from humidity and dust, while a top press secures it in place during the wrapping process. Moreover, the top press stabilises unstable pallets during wrapping.

THE TURNING TABLE WRAPPER CAN ACHIEVE SPEEDS OF UP TO

30

PALLETS PER HOUR

IDEAL PREPARATION FOR TRANSPORTATION AND STORAGE

SUPERIOR PROTECTION AGAINST DUST AND HUMIDITY

WIDE CHOICE OF WRAPPING CYCLES

EASY ACCESS AND MAINTENANCE

OPTIONS

ROPING DEVICE

Optimal film attachment to the pallet.

FLAP FOLDER

If the slip sheet has flaps, this device folds them up before starting wrapping.

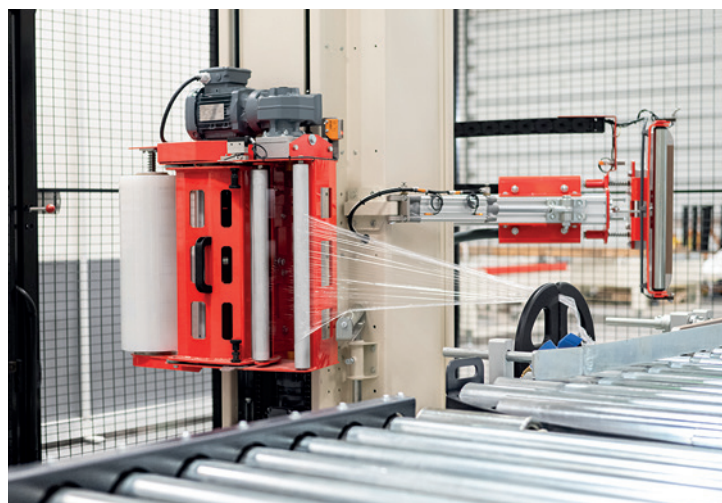

TACKLE DEVICE

Seamless and efficient replacement of the cover film coil.

WPAL-T

| | WPAL-T | |
|---|--|---|
| TECHNICAL SPECIFICATIONS | Max output (pallets/h) | 30 |
| | Installed power (kw) | 6-7 |
| | Air consumption (NL/min) | 16-33 |
| | Electricity | 3 x 400V 50 Hz / 3 x 440V 60 Hz |
| | Indicative measurements (L x W x H) | 4,800 x 6,100 x 4,500 mm / 189 x 240 x 177 in** |
| ** Approximate measurements. It depends on the particular configuration | | |
| PALLET SPECIFICATIONS | Maximum pallet height (pallet included) | 2,500 mm / 98.4 in |
| | Maximum weight (pallet included) | 2,000 kg / 4,409 lb* |
| | Maximum measurements (length x width) | 1,500 x 1,250 mm / 59 x 50 in* |
| *Customizable to other requirements | | |
| FILM SPECIFICATIONS | Film Reel for Wrapping – Film Thickness | 23 µm / 0.9 mils |
| | Film Reel for Top Cover – Film Thickness | 70 µm / 2.8 mils |

The technical specifications may vary depending on the characteristics of the product, the bags, the pallet, the film, etc.
